# Scoring System for Manufacturers

## Green Stock Weight Returned

40% of total score

**Criteria:** Measures the weight of Green Stock returned by the manufacturer either directly from their factory excess and/or through distributor stock rotation program.

**Scoring:** Points are awarded based on the ranking (1st to 5th place), with the highest weight returned receiving the most points.

**Points Distribution:** 1st place earns 40 points, 2nd place 32 points, down to 5th place with 8 points.

## Scrap Allowance Participation

30% of total score

**Criteria:** Evaluates the number of distributors sending their returns vs the total number of distributors eligible

**Scoring:** Participants are ranked based on their percentage participation rate.

**Points Distribution:** Ranges from 30 points for 1st place to 6 points for 5th place.

## Green Stock Returned Value

15% of total score

**Criteria:** Assesses the monetary value of the Green Stock returned.

**Scoring:** Higher value returns receive more points.

**Points Distribution:** 1st place earns 15 points, decreasing to 3 points for 5th place.

## Discrepancies

15% of total score

**Criteria:** Measures the percentage of stock returned that meets quality standards.

**Scoring:** Lower discrepancy percentages earn higher points.

**Points Distribution:** 1st place receives 15 points, with 5th place earning 3 points.
