RJMG SERIES

Amphenol
Commercial Products

Features:

- Low mode conversion
- Advanced EMI and ESD protection
- Power over Ethernet compatible
- Provides DC isolation
- PCB space savings
- Improved EMI performance
- Numerous circuit options available

Overview:

The RJMG series offers a wide variety of fully RoHS compliant Magnetic Modular Jacks for RJ45. The right angle, through-hole type is offered in both single port and multi-port (1x2, 1x4 and 2x2 configurations) with options of tab up and tab down. These connectors have a wide variety of LED options, and are appropriate for fast (10/100 base-t) and gigabit Ethernet applications.

Applications:

Communications
- Copiers, printers
- Surge protectors
- ATM machines
- Vending machines

Telecommunications
- Broadband switches
- Hubs
- Routers, servers
- Telecom box
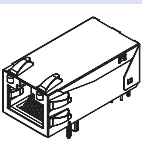

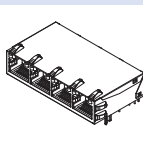

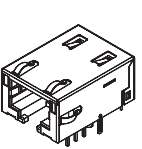

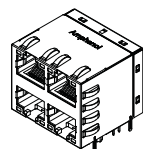

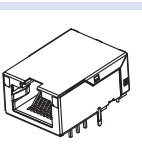

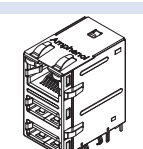

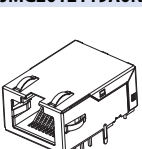

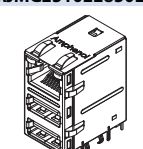

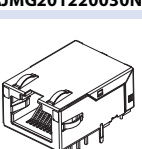

Consumer Goods
- Security systems
- Set top boxes
- Multi-media equipment
- Video/DVD products

Industrial/Medical
- Industrial computers, networks
- Industrial smoke and smog detectors
- Bed monitors, breathing devices
- PC & home analysis monitors
