

## MICRO SWITCH™ NT Series

### Step Base Toggle Switch

#### DESCRIPTION

Honeywell MICRO SWITCH™ NT Series toggle switches meet the need for a rugged, cost-effective toggle switch. Quality construction features include a seal between the toggle lever and bushing, and between the cover and case. These switches can be used where panels are subject to splashes, hose downs, or outdoor environments. Complete sealing of the switching chamber enables NT toggles to comply with UL 508, paragraph 13.3 hose down test. They will also withstand exposure to heavy

accumulations of early morning dew that may condense on the control panel in cabs of vehicles left outdoors overnight.

The “Easy Start” threaded bushing enables quick alignment of the mounting nut to decrease the chance of cross threading. The panel stand-off with O-ring feature available on some listings eliminates the need for behind-the-panel hardware, provides a uniform panel height, and provides a panel-to-cover seal.

#### FEATURES

- Completely sealed switching chamber
- IP67/IP68
- NEMA 3, 3R, 4, 13
- 2- or 3-position maintained and momentary action
- Step-design case provides added space between terminals to prevent shorting
- Spring-loaded actuating mechanism provides excellent tactile feedback
- UL recognized, File E12252, Vol. 1, Section 44
- CSA certified, CE certified
- Optional panel stand-off with O-ring panel seal

#### POTENTIAL APPLICATIONS

Aerospace/Military

- Military and commercial aviation

Industrial

- Construction equipment
- Industrial equipment
- Process control
- Test instruments

Medical

- Medical instrumentation

Transportation

- Agricultural machinery
